the study on which marienthal is based was conducted in 1930 in austria at
the time of a depression that was worse than anything experienced in the
united states but the substantive problem is still very much with us although
our focus is now poverty rather than unemployment in austria the
institutional response to mass unemployment was the dole unlike the work
relief programs of the new deal the dole system left workers destitute and
idle the essential finding of this research is that when people are deprived of
work there is a breakdown in the personality structure of a group marienthal
represents a colossal breakthrough in social research it provides a
combination of quantification and interpretive analysis of qualitative
material an approach that remains in the forefront of present day research
design the work combines statistical data at hand case studies information
on historical background of those being studied and questionnaires

combined with solicited reports that enhance a sense of daily life without intrusion by investigators the work provides a unique insight into how creative innovations can assist in overcoming collective deprivations

employing both large scale surveys and in depth interviews the authors document the mental health effects on workers caused by the closure of four general motor plants they paint a portrait of how the social context in which these workers lived played a critical role in their experiences of unemployment or of keeping their jobs when others around them lost theirs more than simply a study of unemployment and mental health this book is also a story of coping and resilience

this book unveils an innovative plan to end unemployment and poverty in america through the introduction and implementation of new community structures intentionally designed and constructed to improve and restore viable grass root communities throughout america the plan allows core american values to be operationalized in the process of putting millions of americans to work in a new class of highly valued and important jobs it expands the available sectors of work from two to three while simultaneously enhancing real or participatory democracy it also requires the application of scientific methods of investigation and analysis to continuously refine the plan and improve its effectiveness

a study of middlesborough stockton on tees and darlington

the working centre in the downtown core of kitchener ontario is a widely recognized and successful model for community development begun from scratch in 1982 it is now a vast network of practical supports for the unemployed the underemployed the temporarily employed and the homeless populations that collectively constitute up to 30 percent of the labour market both locally and across north america transition to common work is the essential text about the working centre its beginnings thirty years

ago the lessons learned and the myriad ways in which its strategies and innovations can be adapted by those who share its goals the working centre focuses on creating access to tools projects rather than administrative layers of bureaucracy this book highlights the core philosophy behind the centre s decentralized but integrated structure which has contributed to the creation of affordable services underlying this approach are common sense innovations such as thinking about virtues rather than values developing community tools with a social enterprise approach and implementing a radically equal salary policy for social workers activists bureaucrats and engaged citizens in third sector organizations ngos charities not for profits co operatives this practical and inspiring book provides a method for moving beyond the doldrums of poverty relief into the exciting world of community building

can communities create meaningful work that is an attractive alternative to employment insurance and welfare a major canadian study of a new innovative program is showing this to be true this report presents 18 month impacts from the community employment innovation project ceip a study of a program designed to encourage the longer term employability of participants while supporting local community development in areas of continuing high unemployment communities were challenged to utilize the social economy as a source of jobs which would provide participants with opportunities for developing skills and social capital publisher s website srdc.org
