analysing the politics of the 2012 london olympics stephen wagg examines the framing of london s bid to host the games arguments about the games likely impact and the establishment of fortress london to protect the games the book asks who won and who lost out in this important event as well as exploring its media coverage and legacy

in a multipolar world with growing demand for energy not least by emerging powers such as brazil india china or south africa bics questions of eu external energy governance would at first hand appear to be a high priority yet reality tells a different story the eu s geographical focus remains on adjacent countries in the european neighbourhood and on issues related to energy security despite being strategic partners and engaging in energy dialogues it seems that the eu is lacking strategic vision and is not perceived as a major actor in energy cooperation with the bics thus political momentum for energy cooperation and joint governance of scarce resources is vanishing resulting from three years of international interdisciplinary research cooperation among academics and practitioners in europe and the bics countries within a project funded by the volkswagen foundation this volume addresses one of the greatest global challenges specific focus lies on the bilateral energy dialogues and strategic partnerships between the eu and emerging powers regarding bilateral inter and transnational energy cooperation furthermore the analysis provides policy recommendations in order to tap the full potential of energy cooperation between the eu and brazil india china

and south africa

conceptualising terrorism argues that while there have always been good reasons for striving for a universally agreed definition of terrorism there are further reasons for doing so in the post 9 11 environment notwithstanding the formidable challenges that confront such an endeavour
