egypt has enjoyed a period of political stability since the turbulence of 2011 13 implementing a wide ranging programme of economic reform the process started with a drive to rebalance the economy through a number of challenging initiatives including the reduction of subsidies the introduction of value added tax and the liberation of the egyptian pound at the outset of 2018 these headline measures had been implemented and the government s focus has since shifted to the improvement of governance and the investment climate this effort includes the promulgation of the civil service reform law aimed at cutting the large public sector wage bill and an array of legislation designed to remove investment barriers such as the industrial licensing law the investment law and the company law

this book explores the dynamics and challenges of building an industrial workforce and industrialisation in africa it highlights the potential for economic growth within the manufacturing sector and how industrialisation can provide employment build industrial workforce and facilitate labour market opportunities government policies and the role of local and regional governments are analysed to examine why certain industrial parks perform better than others with particular details drawn from ethiopia s apparel and textile industry the historical relationship between capitalist development and the labour force is explored to show tensions between maximising profits and ensuring labour rights and better wages building an industrial workforce necessitates effective government policies firm strategies industrial ecosystems and productive dialogue and collective learning between government and firms

this compelling volume presents the work of innovative researchers dealing with current issues in training and training effectiveness in work organizations each chapter provides an integrative summary of a research area with the goal of developing a specific research agenda that will not only stimulate thinking in the training field but also direct future research by concentrating on new ideas and critical methodological and measurement issues rather than summarizing existing literature the volume offers definitive suggestions for advancing the effectiveness of the training field its chapters focus on emerging issues in training that have important implications for improving both training design and efficacy they discuss various levels of analysis intra individual inter individual team and organizational issues and the factors relevant to achieving a better understanding of training effectiveness from these different perspectives this type of coverage provides a theoretically driven scientist practitioner orientation to the book

with time at a premium today s clinicians must rapidly engage their patients while gathering an imposingly large amount of critical information these clinicians appropriately worry that the person beneath the diagnoses will be lost in the shuffle of time constraints data gathering and the creation of the electronic health record psychiatric interviewing the art of understanding a practical guide for psychiatrists psychologists counselors social workers nurses and other mental health professionals 3rd edition tackles these problems head on providing flexible and practical solutions for gathering critical information while always attending to the concerns and unique needs of the patient within the text dr shea deftly integrates interviewing techniques from a variety of professional disciplines from psychiatry to clinical psychology social work and counseling providing a broad scope of theoretical foundation written in the same refreshing informal writing style that made the first two editions best sellers the text provides a compelling introduction to all of the core interviewing skills from conveying empathy effectively utilizing open ended questions and forging a powerful therapeutic alliance to sensitively structuring the interview while understanding nonverbal communication at a sophisticated level updated to the dsm 5 the text also illustrates how to arrive at a differential diagnosis in a humanistic caring fashion with the patient treated as a person not just another case whether the reader is a psychiatric resident or a graduate student in clinical psychology social work counseling or psychiatric nursing the updated third edition is designed to prepare the trainee to function effectively in the

hectic worlds of community mental health centers inpatient units emergency rooms and university counseling centers to do so the pages are filled with sample questions and examples of interviewing dialogue that bring to life methods for sensitively exploring difficult topics such as domestic violence drug abuse incest antisocial behavior and taking a sexual history as well as performing complex processes such as the mental status the expanded chapter on suicide assessment includes an introduction to the internationally acclaimed interviewing strategy for uncovering suicidal ideation the chronological assessment of suicide events case approach dr shea the creator of the case approach then illustrates its techniques in a compelling video demonstrating its effective use in an interview involving a complex presentation of suicidal planning and intent a key aspect of this text is its unique appeal to both novice and experienced clinicians it is designed to grow with the reader as they progress through their graduate training while providing a reference that the reader will pull off the shelf many times in their subsequent career as a mental health professional perhaps the most unique aspect in this regard is the addition of five complete chapters on advanced and specialized interviewing which comprise part iv of the book which appear as bonus chapters in the accompanying e book without any additional cost to the reader with over 310 pages this web based bonus section provides the reader with essentially two books for the price of one acquiring not only the expanded core textbook but a set of independent monographs on specialized skill sets that the reader and or faculty can add to their curriculum as they deem fit

industrial product service systems ips2 which is defined as an integrated industrial product and service offering that delivers value in use has expanded rapidly over the last decade ips2 has allowed us to achieve both high added value and high productivity and has enriched our qol by improving the performance of products and services we are now struggling with many awkward issues related to sustainability but ips2 is expected to be the philosopher s stone for solving these issues following the pattern of conferences held in cranfield in 2009 link ping in 2010 and braunschweig in 2011 the fourth international cirp conference on industrial product service systems held on november 8 9 2012 in tokyo will cover various aspects of ips2 topics planned for this year s conference reflect the latest ips2 information in both the natural sciences and humanities and include case studies from various industries ips2 is still a relatively new

field so it is important to keep track of the entire context in order to promote more cross sectional cooperation between multimodal fields and disciplines the fourth international cirp conference on industrial product service systems will serve as a vital platform for such collaborations and the discussion of new scientific ideas
